Read the text. Based on the information from the text choose the correct answer

Many people around the world believe in ghosts. I am not quite sure myself. That is because of some experiences I had when I was a student. I was sharing a big old house with two friends, Susan and Jill. They shared a bedroom, because there were only two bedrooms in the house. Susan liked that because she had decided that the house was too spooky to be in on her own. And I think she was right. It often sounded like someone was in the house – like people were moving around upstairs when there was no one up there. One night, something very strange happened. While we were watching TV, the books suddenly jumped off one of the shelves. Jill believed it could all be explained. I wasn't scared. However, Susan was very worried. She thought there were ghosts living there and she didn't like to stay at home alone.

One evening, I was walking home when I saw a light on in the house, so I decided to play a joke on the girls. I entered the house quietly and walked upstairs. I opened their bedroom door and ran in screaming. Unfortunately, Susan was on her own. She was so frightened it took her hours to calm down. The next day, she started looking for somewhere else to live, and Jill and I had our own rooms.
